

The Paul and Gladys Richards Charitable  
Foundation Grants for the Research of British Transferware

***Grant Application***  
**A request for funding publication-worthy research  
of British transfer-printed wares produced from 1760-1900**

This grant program exists to assist individuals in research, writing and other projects in the British transferware field. When determined appropriate by the Transferware Collectors Club (TCC) Board of Directors, funding in the range of \$1,000 to \$10,000 may be granted to those whose projects demonstrate the potential to result in a significant contribution to the field of transferware studies. A committee established by the TCC Board will review applications and make recommendations to the Board of Directors. The project of an award recipient must provide a benefit to the TCC via an article in the TCC Bulletin, a lecture, a compact disk or other approved medium or method and the grant recipient must acknowledge the club's funding support in any resulting publication or other project output. Applicants are not eligible to apply for funding if they have a project that has yet not been completed and accepted by the TCC Board.

**All grant applications must be received by May 4 of the year the request is made.**

The TCC Grant Administrator will notify all recipients of the TCC Board of Director's recommendations by early August. Grant funding for selected proposals will be distributed by the end of August.

Your signature on this application certifies that this is original research, not previously published or funded from other sources, and that you accept the obligation to provide some direct benefit to the Transferware Collectors Club. The TCC may request a progress report or a draft manuscript at time(s) of its choosing. A final report must be provided to the TCC within 12 months of grant award, unless an extension is approved by the grant application committee and the club's president.

If you have any questions about the grant application form or the process, please contact Ms. Overman at:

***Grant Application Part B***

**B.** On a separate sheet(s) answer the following:

1. Please provide a concise outline of your proposed project, or the work in progress, with working title.
2. How does your project contribute to transferware knowledge?
3. What types of sources do you expect to use in your research?
4. How do you plan to use the proposed grant funds? (Please note: If a request for domestic and/or foreign travel is included in your proposal, rationale must be provided. Expenditures should be based on the most reasonable costs available, and undocumented or unverifiable expenses cannot be funded.)
5. What is your expected completion date?
6. What publisher(s) may be interested in your work? What contacts have been made?
7. Have you completed other ceramic-related work? If yes, provide title, date and publisher. If unpublished, please provide a sample of your written work.
8. What was the origin of your transferware interest? Do you have any area(s) of specialization?
9. What is your educational, professional or business background?
10. Please provide two transferware-related references familiar with your knowledge of or experience with transferware.
11. Please sign and date your application on page 1.
