

TILES

Sandie Fowler artiles@earthlink.net 978-649-4983

We are looking for help from any of the collectors who may have copies of any of these tiles. We are putting together a book on Series Picture Tiles and would like to show as many images as possible from the different series. We would like scanned images at 300 DPI and save as a full size .jpg file. If you have to use a digital Camera please use your highest resolution size and save in large format, please take image straight on so the tile shows square & without a flash. If you can not do pictures we might be able to make other arrangements for you to share. We appreciate all of your help and you will get credit for your images in the book. Please let us know how you would like to see the credit line. This will be a valuable reference book for all collectors & dealers in the future and we appreciate everyone's help in making it happen & being as complete as possible.

We look forward to hearing from many collectors or anyone else who loves tiles. We would also be appreciative if you could forward our note to anyone else you know who might have a tile collection and please encourage them to share.

Please email for updated lists.

If you have other tiles from series not listed and think they should be documented please write & let us know what you have.

Series that we are short on are, please note companies are not all together alphabetically.

Coalville Shakespeare we have
